## FORWARD

The demand each year encourages further improvement in this Directory of Industries prepared by the Greater Windsor Industrial Commission.

The 475 industries of this area are listed alphabetically in the front part of the Directory.

The number before the name of each company is the key to the cross-index which makes up the second part of the Directory (pink).

The letter following the name of each company is the key to the number of employees. The key letters denote:

A	-	1,000 - over
B	-	500 - 999
C	-	250 - 499
D	-	100 - 249
E	-	25 - 99
F	-	1 - 24

The Greater Windsor Industrial Commission provides this Directory of Industries so you will have an efficient and accurate guide for your purchasing requirements and sales staff.

Because Windsor workers have the highest value added by manufacture per capita (\$18,187) than the workers in any other city in Canada, new and expanded production facilities are continually being added. For further information, it is suggested that you contact the office of the Industrial Commissioner, 1009 Canada Building, telephone CLearwater 6-6297.
